Modifications to the Stabilization/Solidification Treatability Study

Sue G. Stiger, Director
Environmental Restoration Management
EG&G Rocky Flats, Inc.

The Department of Energy, Rocky Flats Field Office (DOE/RFFO) approves EG&G's proposal that the Solidification/Stabilization Treatability Study be replaced with test work performed by the Waste Projects Group. The savings in time and costs may be substantial and should allow the results of the test work to be made available in time to support the initial screening of alternatives for Operable Unit No. 2.

The DOE/RFFO believes that EG&G should pay more attention to this project. Our request for additional details to the test plan has not been met as of October 5, 1994. The additional detail is necessary to insure that the regulatory agencies will also approve of this proposal. Efforts should be expedited to provide the test plan details and to coordinate with the other groups on plant site in order to meet the projected schedule.

If you have any questions, please contact Norma Castaneda at extension 4226.

 Jessie Roberson
Assistant Manager for
Environmental Restoration
